The large advertising patronage which has been tendered us, compels us to issue a great deal of matter gratis, and we are prepared to give it free of charge, and it is impossible to do otherwise. We are not in the habit of charging for the insertion of notices, and we are not in the habit of charging for the insertion of notices, and we are not in the habit of charging for the insertion of notices.

Five miles this side of Little Lost river, with a force of 500 men, and a few days will get a like number between good river and Boise City. We were informed by those gentlemen that by the time they will be working on the line by this place, and that work will soon be commenced on the bridge crossing Snake river at the mouth of Burnt river. This looks like business, and the near prospect of a brighter era in the history of Southern Idaho and Eastern Oregon. With these facts in view, we may expect within a year from this time to hear the shrill whistle of the first horse coming from the mountains to the city, while one great valley will soon be a plain, and the soil will be rich, and there will be a fertile welcome that the proud husbandman.

It is desirable for us to be established for the excellent stock range surrounding the valley. Much difficulty was experienced with Indians until the last year or three years, since the Barnock was, which it is to be hoped is over, and which it is to be hoped is over, and which it is to be hoped is over. During this war, three old settlers fell victims to the strife, viz: Wm. Monday, Tom Haley and Jacob Grossman. They are of present eighteen settlers, some of whom have families. As present we have no school, for want of a suitable teacher, though we have a school house. It is to be hoped the deficiency will soon be supplied.

The Boise City Leader

WEDNESDAY, AUGUST 13, 1896.
PUBLISHED BY THE LEADER OFFICE.
No. 100 N. 2nd St., Boise, Idaho.

Believing that the time has arrived in the history of Washington County when a journal devoted to its interests would be beneficial in advancing its progress, and assisting in the development of its resources, we have made the venture, and today present to the people of this county and Southern Idaho the first number of the LEADER.

We have no promises to make as to whether than to say, that we have pledged ourselves to publish a neutral paper (politically) we shall stand firm in this respect, not just as strictly independent of all parties directly bearing upon the welfare of our county and community, in which we, with the rest of our fellow-citizens, are held morally and otherwise responsible.

Washington county is now only 19 months old, but three years ago, with every year in the favor to become one of the wealthiest in Idaho. Just now, but the future destiny is being shaped, thus making it incumbent upon its citizens to see that those honored with public office should be men of integrity and responsibility, deeply interested in any and all enterprises vital to their future greatness and prosperity.

In looking over the large field before us, we plainly see a vast amount of hard work to be done in order to make the Leader an acceptable and appreciated messenger to its readers, and of course we have devoted our energies to our patrons for the accomplishment of any purpose we may deem necessary to make it so. Believing

with the only city in Idaho, we are proud to be the first to be the privilege of a city, this pursuit of our ambition.

With the only city in Idaho, we are proud to be the first to be the privilege of a city, this pursuit of our ambition.

AND THE RAILROAD.
The Oregon Short Line will build their line near Boise City in a considerable important place. The citizens of this capital city are it will leave them some the south go down and cross Boise river and below Middleton. This will not be the result. One end from an opinion the company will do it to believe if they find interest to go to Boise, they will be left with an interest in the future of our capital, we do not see it deprived of any of our interest, we do not see it will add to the future of our community. It has been said to us that some have expressed themselves of the probability of the city will be left with a neutral paper (politically) we shall stand firm in this respect, not just as strictly independent of all parties directly bearing upon the welfare of our county and community, in which we, with the rest of our fellow-citizens, are held morally and otherwise responsible.

blacksmith shop and the saloon. Among the inhabitants of this place we would not forget to mention, as perhaps the most prominent, the Hon. William H. Hays. This gentleman is one of the pioneer settlers of this valley, and is perhaps more prominently identified with its interests than any other citizen. A man of progress and liberal means, alive to the advantages of public improvement, he is not only one of the solid men of Ada county, but of the Territory as well.

From Hays' Ferry to Washoe Bottom, south of the river, the distance is eight miles. Having a personal knowledge of this community we are unprepared to make special mention, but judging from what we have been told concerning it from an agricultural point of view, it must be a very desirable one. It is our intention, at an early date, to visit the Washoe people where we will talk of their and their several interests intelligently.

The Egyptian War

The complications which have led to the present situation of affairs in Egypt, and which have been the cause of the Egyptian war, have been the result of the Egyptian revolution of 1914, and the subsequent events which have followed. The revolution was the result of the Egyptian people's desire for independence, and the establishment of a constitutional government. The revolution was led by the Egyptian nationalist movement, and the result was the establishment of the Egyptian republic in 1922.
