A Good Law Wanted for Idaho.
Ezra L. Adams, I believe that the influence of the press throughout the Territory, here could be a full introduction in the next legislature to prevent the wholesale slaughter of deer for their hides, which is at present being carried on, and more particularly in the winter. For the last three winters I know of over a hundred on an average being killed within a distance of a few miles. It was stated in a Boise City paper some time ago that there was over 400 killed at Hare's Hot Springs last winter. This brings the case at home with us, which must be strangled the Territory? The thousands that are killed every year for their hides, and the meat left out on the mountains, is a crying shame which every right thinking man will condemn.
