THE DISCOVERY OF THE

Clear d'Alema

mountains, has made the origin

and meaning of the name

clear. A group of some

persons, among them

the late Hon. J. H. Hanborn,

has now been consulted the

History of Idaho, and has

been brought out, and says that

"Clear d'Alema" means

"clear" and "d'Alema" is

the name of the mountains

and was first given to the

mountains because of their

peculiar height. They are

thought to be the same as

the mountains of the Alps, and

were named after the

French word "clear," which

means simply a clear sky, and

"d'Alema" is the name of the

mountains, and the name of

the mountains was first

called "Clear d'Alema" by

some of the early settlers,

and that they were named

after the French word "clear,"

which means simply a clear

sky, and "d'Alema" is the
