A REMEDY FOR THE BURDEN

A Way to Avoid Some of the Irksome Conditions

So Frequently Resorted to by This Signal.

Mr. Editor:—Having seen an item in your issue concerning jail burials, I am glad to see that you are taking an interest in this matter.

We now have three prisoners in our county jail, and the latter is allowed two dollars a day for maintenance, which includes board. This would be six dollars per day, and is safe to estimate that coal, wood and light cost something more, making a total expense to the taxpayers of seven dollars per day. Now suppose we had a court full of prisoners. These prisoners were put in jail in October, making eight months, or 240 days, being 240 days at \$7 per day, \$1,680 for the keeping of these prisoners, provided they keep well, and if they should get sick there might be a large bill to pay for doctors and medicines.

It is a fact that the county has saved \$1,600 prisoners expenses last year, by paying for the same in advance, and the county has saved \$1,600, making \$1,600, or \$1,600. Our third of that amount would be \$2,766. If it could be saved at any time, we could have saved the \$1,600 prisoners expenses last year, by paying for the same in advance, and the county has saved \$1,600, making \$1,600, or \$1,600.

It is a fact that the county has saved \$1,600 prisoners expenses last year, by paying for the same in advance, and the county has saved \$1,600, making \$1,600, or \$1,600.
