A Perfect Baking Powder.

Cream Baking Powder, the standard cream tartar powder for forty years in the market.

FIRST—The extreme care exercised by the manufacturer to make it perfectly pure, uniform in quality, and of highest raising power.

SECOND—The recent investigations regarding the wholesomeness of baking powders, which have shown that the phosphate powders and all others that were found to contain alum, are unwholesome.

These objectionable manufacturers are now found out, and their powders are rapidly disappearing from the market.

THIRD—The Cream Baking Powder is the only one that has ever received the highest award at any World's Fair or Exposition for purity and leavening strength. Many have received second awards, but never highest, as it is justly known. What could be the reason, more than the fact that it is the purest, strongest and healthiest? Each year it is gaining in favor, and is now the standard. BEST & ALWAYS the CHEAPEST.

Dr. Price's Cream Baking Powder is the only one that will not produce an acrid taste from Ammonia, Alum, or any other adulterant. In fact, the purity of this food product has never been questioned.
