Can't know as we do what Values We Are Selling In

Men's Suits

If they did we wouldn't have a suit left by Saturday night. In this age of Advertising, when space is for sale, anybody can offer merchandise, at any price, but to Have it to be able to Show it that's a Different Story

When We Say High Art \$20 and \$25 Suits for \$16.00

We mean as good as can be produced. Hand work, all wool, in every good color, and as to fit and make there's no better. Some are true Creations of Young Men's Suits and Stouts and Gingers. A style that has the earmark of value, quality and style and to know about it is to see it.

\$10.00
Buys a better suit today than \$12.50 and \$15.00 did a year ago. Not alone has the cloth improved and nothing but all wool is used but the make is along the lines of the finest makes.

Then comes our Boys Department with its many good things. Some are made of Kinkoobok or some of a Dollar to the finest Suits made.
