WHEN MEALTIME COMES

Do you ever stop to consider
the quality of the food you are eating?
It may be good
It might be better, purer, fresher and more
wholesome.

It is not worth while to make pure that your life, coffee, sugar, salt
spice and innumerable other groceries are of the best quality?

There is much a trifling difference between the cost of the best and the
worst that it does not pay to buy the worst, you on the ground of supposed
economy. The best is the cheapest, and the best quality at the lowest
price can be found at
