WHEN MEALTIME COMES

Do you ever stop to consider the quality of the food you are eating?

It may be good

It might be better, purer, fresher and more wholesome

Is it not worth while to make sure that your tea, coffee, sugar, and all groceries are of the best quality?

If you are using anything inferior to the best we can furnish, remember that it will cost you no less to get the best, and the ground of economy does not exist. The best is, we always say, the cheapest in the end.
