Dry Powder The Extinguisher a Great Success

The intelligent fore ean be easily handled by the firepowder fire extinguisher now proven by Mosier Hardware & Stewart in front of the Weiser Saloon Wednesday night, in the presence of a large crowd of business men and property owners. A Tribune reporter representing the interior of a room was set on end, filled with a kindling and saturated with kerosene. When the fire had burned a few minutes, creating a heat that compelled bystanders to move back some distance, one of the demonstrators stepped forward and threw part of the contents of one fire extinguisher at the base of the flames. The fire died down instantly. The applause which greeted the patriotism showed that the merits of the extinguisher were recognized.

Chamberlain's Cough Remedy a Pleasant to Take.

The finest quality of expectorant ever made, is used in the manufacture of Chamberlain's Cough Remedy, and the route used in its preparation gives it a flavor similar to maple sugar, making it pleasant to take. Mr. T. E. Rodenfels, of Noblesville, Ind., in speaking of this remedy says: "I have used Chamberlain's Cough Remedy in my family for several years and can highly say that it is the best preparation of the kind I have ever used. The children like to take it and it has no injurious after effect. We owe to it all daughter."

Quarterly Meeting of Young People's Union.

The Young People's Union will hold their next quarterly meeting, Friday evening, Dec. 2nd, 1904.

The topic will be "Best Methods of bringing Young People to Christ." This promises to be a very interesting subject and each member should be present to come prepared to give his opinion. Miss Emma Pinkley, the president of the Congregational Society, is the leader of the meeting. As she is one of the society's best endeavorers, she will undoubtedly do her utmost to add to the evening's entertainment. Everybody is expected to attend.

An Old Friend.

THE SIGNAL is an old friend of all the people, the county, the business interests, the farmers' interests, the miners' interests. Creeds or politics are alike indifferent to it when it comes to the matter of working for public progress and giving people the news, and furnishing them with a good representative local paper.

This requires money and we must look to our patrons for it. To induce old patrons to clear the books, and get new ones, we are now offering an

HEATH MINING DISTRICT NOT FAR FROM WEISER

Important Developments Have Been Made During Past Season—Is Attracting Eastern Capital.

Much activity is beginning to manifest itself in eastern mining circles in the Heath district, and developments have been going on for past few months by local owners of very promising properties, copper, gold, silver, lead, says the Cambridge Standard.

Bennett & Lyons', copper property, in the Heath district, is worthy of special notice, it being a contact fissure vein, showing copper, gold, silver ore in solid body. The ledge is about forty feet wide, with a tunnel in now being run into the vein. It was located and will probably be run to cross said tunnel through copper ore bodies at 300 feet more, and depth of about 1200 feet. Patent rights on ore and fluxing properties and reduction of ores are also owned by this company and will be handled by them. Mr. Bennett is also the owner of the Bennett Hill property, which is a big concentrating proposition and facilities for cheap mining. Other claims belonging to same parties are also rated as a fine mining property.

T. F. Mahoney is also the owner of the copper prospects in the Heath mining district, and one of the gold claims in the Lime Quarry.

Mahoney has numerous claims among them some first-class prospects, including a claim known as the Lime Quarry claim, which is a big proposition, and will soon be started up as a extensive property. Adjoining this claim is

THE WEISER SIGNAL.

[Boise County News.]

One of our exchanges reports that "we don't deserve a lecture—we receive no smiling after a defeat, but say that it will come later, we smile all the time. That exchange is just about right. A party which principles are founded on right and justice is bound to win out in the end. We may suffer defeat—but—what of it? Truth and Justice is sure to triumph in the end. Democracy is just now up in the air. Many Democrats are not satisfied with the action of the St. Louis convention and just as long as the "rail" of democracy is upon the Democratic party will split.

WHERE THEY COME OUT OF THE WOODS, LOOK OUT.

[Silver Messenger.]

There was a natural falling off of the vote in Custer [county this year] from the registration. In Challis precinct alone there were 179 registered and only 146 voted. Other precincts in the county showed a greater decrease. The nomination of Parker ended the color of democracy here. The "wounds are full of democrats" in Custer county, but they wouldn't come out of the woods, and these that did come out voted the republican ticket.

Do Let up On Smoot Fight.

The Women of America will Keep it Up.

A New York special of the 9th, says:

The women of America have an intention of letting up in the fight on Reed Smoot, but when the casual observers read next day will be ready to endure the agitation to help the Mormon apostle ousted. Mrs. H. H. Schoff, chairman of the executive committee of the National League of Women's Organizations, has outlined the plans of the society campaign:

The long interim in the progress of the investigation against the election of Reed Smoot in the United States senate has not caused any diminution in the strength of the forces which have combined to protect the home, the honor of womanhood, the sanctity of Christian marriage, and the freedom of the ballot from the ever-increasing attacks of the Mormon hierarchy.

GRAVITY OF THE CASE.

The American people had no conception—for the gravity of the situation, when one year ago nineteen brave men of Salt Lake signed the protest to the federal and gave said and sufficient reasons why an apostle of the Mormon hierarchy should not occupy a seat in the highest law-making body of this land, and when the history of the United States sent in their petitions by the thousands urging his expulsion from the senate.

The revelations made during the investigation aroused the attention of the whole country. The appeal to the conscience of the people, the intelligent, against the election of Smoot was for the president of the Mormon hierarchy, other lack of faith with the government in keeping the promises made in the manifesto, were all brought out before the investigation adjourned at the close of congress.

BELIEVED MANIFESTO SINCERE.

After the signing of the manifesto, the election of the apostles of the church, the old liberal party, which was split—Mormon, and and disbanded, as it had in fact been ever since the organized their working against the Mormons. Following that the Mormon-gentile alliance, that polygamy no longer to continue, every effort was made to ignore past differences and to work for the common good. Slowly but surely the conviction grew on the gentiles that again the Mormons had duped the people, and that, under cover of the manifesto, they were steadily extending their power and influence and were following all their former practices. The control of the public schools, the presence of polygamous teachers above the control of the church, the arming of the election, always to be with the dominant party, whether democratic or republican, the open practice of polygamy by the leaders in the hierarchy, are all facts well known by those conversant with Utah and Idaho.

The oppressions of the hierarchy, the determination to send to the senate two Mormon apostles instead of one, calling their republican houses that would do best for the people, not knowing that they primarily would represent the Mormon hierarchy rather than the people of Utah caused the organization of the American party in Utah this fall.

WILL FIGHT FOR AMERICANISM.

Republicans and democrats who are gentiles combined and pledged their lives, their honor and their property to stand together until Utah is no American state. The "American Party" polled 7000 votes in the county where Salt Lake is located, so that one the National League of Women's Organizations has allied with it in its battle for home and freedom the American party of Utah. This is a great gain in one year.

There were nineteen men in Salt Lake then to protest against retaining Reed Smoot in the senate. There are 7000 men and women there now, who at the polls made their protest against the Mormon hierarchy and its supervention. There are hundreds of thousands of men and women elsewhere who are looking earnestly and intelligently to the senate to defend their beloved country from the presence in that noble body of one who represents a cult confessed law-breaking organization and who so one of its highest officials is convicted and now stands convicted before high heaven of polygamous living.

Decisive action now may check the shameful aggression of the Mormon hierarchy. If the issue is not met bravely and honestly it will be met at greater cost later. The issue will not down—it is before the American people. It is of grave moment to every citizen. Each month as the facts are revealed the forces allied for the possession of the home and for pollution from Zion, church control gain in strength and numbers.

The republican party, in its inception, vowed to free the country from slavery and polygamy. It has fulfilled the first pledge. The opportunity to fulfill the other, is before the senate this winter. If every man and every woman who objects to having a Mormon apostle in the senate will send a letter to their state senators in Washington, they will carry the wishes of their constituents.

The National League of Women's Organizations will actively take the cooperation of all in this critical moment.

WARDNER SCHOOL HOUSE

DESTROYED BY FIRE

North Idaho Town Loses $14,000 Structure and all the Books and Furniture.

Wardner, Idaho, Nov. 11.—Fire of unknown origin destroyed the Wardner school building yesterday between 7:30 and 8:00. How the fire started is a mystery that no one can solve, but when Supervisor Hall had school rush headway as to make it impossible to check the flames. Wardner is without a school house this winter. The fire was discovered by the janitor, who was in the building, and soon after the alarm was given the whole town was there. Efforts were made to get through the doors of the building, and soon after the fire shot up through the roof the building was a mass of flames. The fire department responded promptly, but the fire had gained such headway as to make it impossible to check the flames. The building was a two-story frame structure, and was valued at $14,000. The loss is partially covered by insurance. The school furniture, books and apparatus belonging to the school, were all destroyed.

It is fortunate that no one was in the house at the time of the fire, for it would have been impossible to save them from probable that they would have been burned to death. Fortunately, however, all of the children escaped.

The Wardner school house was a frame structure built only a few years ago, and was one of the best school buildings in the county. The total amount of insurance carried on the building is $5,000.
