Entertained Payette Rebekahs.

Thursday evening the members of Fidelity Rebekah lodge of this city entertained fifty members of Harmony Rebekah lodge of Payette, and the gathering was indeed a very cordial and happy one.

Two candidates were intiated into the mysteries of the order and an election of officers for the next term beginning January 1st was the other business of importance transacted. This was followed by some splendid talks by the visiting ladies which were appreciated by everybody present and were both entertaining and instructive.

A feature of the evening was a mock wedding uniting in the bonds of friendship "Harmony" of Payette and "Fidelity" of Weiser. It was cleverly executed and it is hoped the pleasing incident will be an ever present reminder of the close ties which bind the two lodges. A solo by Mrs. Leslie Sloen was another pleasing portion of the program. She was heartily encored and graciously responded.

A most elaborate banquet was spread following the program, and the visiting ladies were each escorted to the feast by a member of the Weiser lodge. 139 were seated at the tables and there was plenty and to spare of the good things provided by the local ladies. A very pleasant social hour ended a delightful evening, and the Payette ladies on leaving for their homes were most cordially invited to pay a return visit at no distant date.

A. F. & A. M. Attention.

There will been special meeting at the Masonic Hall Wednesday evening for work in the Fellowcraft degree. Visitors welcome.

32. H. W. Benfer, W. M.

Crane Creek Meeting.

The land owners under the Crane Creek irrigation system are in session at the Chamber of Commerce rooms this afternoon for the purpose of conferring with Messrs. Roberson and Snow concerning the future of the project. What news these gentlemen have or what they have to offer the Signal is not able to state at this time.

Mock Trial Thursday Night.

Owing to the inclement weather the mock trial, which was to have been put on at the Weiser Cove Grange two weeks ago, was postponed to next Thursday night. Unless the weather again prevents the trial will take place this time.

Breaking Into the Movies Easy Now.

That you dont have to be an actor or an actress in order to get into the movies was proved during the making of the new Rex Beach picture, "The Iron Trail" which will be seen for the first time this week at the Star.

In addition to the big all star cast and the regular actors that appear in their support, carpenters, bricklayers, masons, iron workers riveters civil engineers, locomotive engineers, locomotive firemen, and railroad laborers were employed by R. William Neill director and all of them will be seen on the screen.

"The Iron Trail" is a thrilling railroad story and Rex Beach, the author who personally approved the entire production, was especially particular in seeing that every detail in the picture portrayed the real thing. Even the big mob fight between the rival gangs of workers was a real fight as the pictures will testify and the snow and ice views that show the players in the grip of the Alaskan winter, are shots actually made in Alaska.

So if you think that you have to be handsome, and a graduate of a dramatic school to get on the screen, go and see "The Iron Trail" and note how just plain mortals look in the silent drama.

Mental Notes.

One of our townsmen wrote an interesting article a few weeks ago which was published in this paper calling attention to the need of a community house. No doubt every reader of the Bulletin perused the article, and no doubt they a goodly portion of them made a mental note of approval.

Up to this time the making of mental notes is as far as the matter has gone. No one has come down the line and patted Mr. Beard, the author of the article, on the back and said, "You're right old fellow, let's get in and boost the thing along." No one has suggested to the Bulletin that they were wanting to second the motion. Nothing doing. Just mental notes.

Whether it is the building of a community house, the guarding of a street, or the cleaning of a chimney, they all require some action. The spirit of "Let George do it" has a grip on most of us, especially when it comes to matters public.

The Bulletin isn't discusing the merits of building a community house. We are trying to hold up to the readers the general condition of lethargy which has to hold of us. We're asleep and don't know it.

Wouldn't it be a wonderful thing to wake up a few years hence and find Harrisburg with a well porportioned community house, a lovely city park, a well patronized library in a handsome building, a fine bridge and auto park, school gymnasium, paved streets, and better still, all the young men and women employed right here at home in the various industries that had sprung up while we slept, wouldn't it be wonderful?

But things don't come that way. It takes work. If we want to keep our boys and girls out of the city we'll have to begin to get busy and provide something worth while for them in the country.

Think it over—it's a rare chance for another mental note.—Harrison (Ore.) Bulletin.

Mrs. Hamilton Entertained

Mrs. W. R. Hamilton was hostess at Bridge to the members and guests of the Friday club. The guests were Mesdames O. H. Lawson, Geo. Nesbit, and O. N. Ellingson. Mrs. Nathan Sommer won club prize and Mrs. Lawson guest prize.

Three-Year-Old Comes From Denver Alone.

A three-year-old boy who had come all the way from Denver alone was turned over to Night Marshall Spangler last night by the conductor on train No. 17. The little fellow according to his story had came to an uncle in Weiser. He knows his own name but we were unable to get in touch with Mr. Spangler in order to get it. He doesn't know the uncle's name though so the authorities have taken him in charge and are trying to locate the uncle. The little fellow said that his mother had put him on the train. Though he says he is only three years old, the authorities says he is a bright little fellow and looks to be between four and five.

Taken Up.

One bay gelding coming five years old, no visible brand, large star in forehead, two white hind feet. Owner can have same by paying pasture bill and for this advertisement.

Sheep Men To Meet.

A meeting will be held in the rooms of the Ontario, Oregon, Commercial club on December 13, 1921, at ten-thirty in the morning, to which all wool growers in this section of Idaho and Oregon are cordially invited.

Mr. R. A. Ward, general manager of the Oregon Wool and Mohair Growers' Cooperative association will be there and will make an address on the benefits of pooling and marketing all of the wool of this section through his organization. Believe this will prove of great advantage to all our local wool men and it is hoped all interested in this question will attend.

Knights of Pythias To Huntington.

A large delegation of Knights of Pythia from Weiser went to Huntington Friday night and took in a district lodge meeting at that place. They report one of the best meetings they ever attended anywhere and give Huntington's lodge credit for the success of the evenings feastivities. Splendid talks were listened to and in the spread of good cheer Wm. Van Sice, Frank Harris, George Waters and others from Weiser did their part. In February the Weiser boys are planning to have the Huntington [illegible] to be present [illegible] members and some of their district

Tennis in Ancient Days.

Henry VII was a tennis lover and it was he who built the famous court at Hampton court, where it may be seen to this day. Tennis was indeed ever a game of kings and princes. Kings of England and kings of France used with ever enthusiasm in their recreations, it whilst the courts of both countries followed the royal lead. The faithful Pepys is peculiarly faithful in his references to tennis.

Social Action and Affection.

Among the delusions which at different periods have possessed themselves of the minds of large masses of the human race, perhaps the most curious—certainly the least creditable—is the modern "self-distant" science of political economy, based on the idea that an advantageous code of social action may be determined irrespectively of the influence of social affection.—Ruskin.

The Joy of the True Spirit of Christmas

ARE you willing to forget what you have done for other people and remember what other people have done for you—to ignore what the world owes you, and to think what you owe the world; to put your lights in the background, and your duties in the middle distance, and your chances to do a little more than your duty in the foreground; to see that your fellow men are just as real as you are, and try to look behind their faces to their hearts, hungry for joy; to own that probably the only good reason for your existence is not what you are going to get out of life, but what you are going to give life; to close your book of complaints against the universe, and look around for a place where you can sow a few seeds of happiness—are you willing to do these things even for a day? Then you can keep Christmas.

Are you willing to stoop down and consider the needs and the desires of little children; to remember the weakness and loneliness of people who are growing old; to stop asking whether your friends love you, and ask yourself whether you love them enough to bear in mind the things that other people have to bear on their hearts; to try to understand what those who live in the same house with you really want, without waiting for them to tell you; to trim your lamp so that it will give more light and less smoke, and to carry it in front so that your shadow will fall behind you; to make a grave for your ugly thoughts and a garden for your kindly feelings, with the gate open—are you willing to do these things even for a day? Then you can keep Christmas.

Are you willing to believe that love is the strongest thing in the world—stronger than hate, stronger than evil, stronger than death—and that the blessed life which began in Bethlehem nineteen hundred years ago is the image and brightness of the eternal love? Then you can keep Christmas. And if you can keep it for a day, why not always? But you can never keep it alone.—Dr. Henry Van Dyke.

Soft Sugar Vanilla Wafers.

Cream together two cupfuls of soft sugar and one cupful of butter. Add the yolks of five eggs well beaten and a generous flavoring of vanilla. Sift two teaspoonfuls of baking powder and one-half a teaspoonful of soda with two cupfuls of flour. Add alternately the well-beaten whites of the five eggs and the prepared flour with enough more to make a soft dough. Roll thin and cut in small rounds, diamonds or squares.

Distributed Cares.

"Why are June weddings so popular?"

"Because of the natural tendency of conditions to adjust themselves. People shouldn't be expected to buy wedding presents and Christmas presents all at the same time."

What Lies at Hand.

Our grand business undoubtedly is not to see what lies dimly at a distance, but to do what clearly lies at hand.—Carlyle.

Sacrilege!

The Girl (at the Movies)—Look here, Bert, ain't you got no more sentiment than to crunch peppermints while there's a love scene goin' on?—From Royal Magazine, London.

Know Source of Pictures.

Guy was out calling with his mother, when he saw a picture of angels on a wall in a home where they were calling. Calling his mother's attention to this picture, he said: "Mother, somebody must have taken a Kodak to heaven with them."

Logical Indignation.

The Nebraska man who was fined for snoring in church is indignant that the parson who lulled him to sleep got off scot free.—Vancouver Province.

Etiquette for the Visitor.

If you are company in a house, and the tablecloth with a spot on it is placed on the table a second time, take the hint; it's time for you to go home.—Atchison Globe.

National Banks.

National banks are subject to supervision by the comptroller of the currency, an official appointed by the President. The comptroller can take possession of a national bank any time an examination shows its capital impaired. National bank stockholders are liable for double the amount of the capital stock they own, to protect depositors in case the bank suffers losses that impair its capital. There is no guaranty of deposits in national banks.

Way to Detect Forgery.

For decision of forgery and identification of handwriting it is best to turn the writing upside down, according to tests made by the psychology department of the University of Wisconsin at the Universal exposition, where 297 persons tested their ability to discover forgery. Ten signatures and two cards were submitted to visitors, and one of the ten was false. For discovering the false one, the inverted card was found most helpful. This condition is explained by the fact that for fine judgments it is best to pay attention only to the form of the writing.

Why We Say "She."

The discussion being on why we refer to an automobile as "she," one man said it was because when a car is slicked up and attractive we all admire her; when she acts properly she is charming; yet we often drive her into improper action, by lack of care, and when she gets old and has lost her style we try to discard her and get a more pleasing one.—Boston Transcript.

Amount of Salt in the Sea.

Ocean water contains an average of 3.77 per cent of salt. If all the saltine matter of the sea was put together it would make a block of salt measuring 4,800,000 cubic miles. If spread out it would cover the United States to a depth of one mile and a half.

Deplorable.

Master—Now, cook, just look here! Look at that piece of bacon I've just given your mistress! It's the worst cut I ever saw in my life and this piece I'm just going to take myself is only a little better.—Edinburgh Scotsman.

Handicapped.

"Ah wouldna say MacTavish canna learn the game," said Sandy cautiously to his golf partner, "but 'what with being both religious and tongue tied it will be deeficult, aye, verra deeficult."

Mustn't Expect To Much.

A United States senator had just finished a night's work on a speech. "You have convinced me," said his secretary, "except for one trifling detail. Where do I, the man who has to buy meat and bread, get off?" The senator touched his nose with his finger and replied sagely: "Well, to legislation is 100 per cent perfect."

Their Real Reason.

"But I thought men were supposed to adore women for having just what they haven't got, just as we adore them for their physical strength and their brains," "or more any and so we say, because otherwise there would be no marriages," said Mrs. Vaudell. "But it is a lie. We only love their strength for the sake of getting the better of it. They cultivate our foolishness because it gives them rest from competition, and they can sit down and plume themselves."—From "Three Loving Ladies," by Mrs. Dowd all.

Flowers That Sleep at Night.

There are many wild flowers that close their petals and droop their heads with the coming of each day's dusk, and it is unreasonable to regard this as other than the sober fact which it obviously is—that the flowers have fallen asleep with the approach of night.

Not a Bad Description.

Alice was taken to a dance one evening. The next day, while playing with her playmates, her mother overheard her telling them about the dance. And this is the way she described it: "The papas put their arms around the mammas, and they just walked, and walked and walked."

Removing Jar Lids.

When it seems almost impossible to remove the top of your fruit jar, hold the cover under hot running water for a few moments and you will be surprised how easily the lid will unscrew

FOUR POWER TREATY.

(continued from first page)

laration on extra-territoriality and agreements relative to China's neutrality and future treaties affecting her were included in the resolution spread formally on the records.

Although the plenary session occupied the attention of the delegates until afternoon, the Japanese and Chinese met and reported considerable progress in Shantung negotiations. Next week the Far Eastern committee will resume its deliberations and it is possible another plenary session will be held early in the week to record the agreement on the final ratio.
