WEISER, WASHINGTON COUNTY, IOWA, SATURDAY, DECEMBER 10, 1906. No. 34

COUNTY MUST CONSTRUCT THE BRIDGES

Stipules of Decision Handed Down by District Court. Means Big Expense to Counties.

The stipules of decision handed down by the District Court in the case of the Weiser County Board of Supervisors vs. the State of Iowa, are of great importance. The court has ruled that the county is responsible for the construction and maintenance of bridges over its roads. This decision is a significant one, as it places a heavy financial burden on the county. The court's decision is based on the fact that the bridges are a public use and are therefore the responsibility of the public. The county, as the representative of the public, is therefore responsible for their construction and maintenance.

INTEREST INCREASES AS END APPROACHES

Less Than a Month to Close of Contest. From Now on the Race Will be the Hardest Worker.

The interest in the contest between the Weiser and the State of Iowa has increased as the end approaches. The race is now in its final stages, and the competition is becoming more and more intense. The Weiser is determined to win, and the State of Iowa is determined to defend its position. The race is now a contest of wills, and the winner will be the one who is the hardest worker.
