WEISER MERCANTILE COMPANY

LARGE SMELTER TO BE ESTABLISHED AT WEISER

CHICAGO PARTIES INTERESTED—EXPECT TO HAVE PLANT IN OPERATION JULY 1st.

The Chicago parties interested in the proposed smelter at Weiser, Idaho, are expected to have the plant in operation by July 1st. The project is being developed by the Chicago Smelting and Refining Co., which has secured the necessary permits and is now in the process of constructing the plant. The smelter is expected to produce 100,000 tons of refined copper annually. The Chicago parties are interested in the project because of the large amount of copper ore available in the Weiser district. The plant is expected to be one of the largest in the world. The Chicago parties are also interested in the project because of the large amount of refined copper that can be produced at Weiser. The plant is expected to be one of the most modern in the world. The Chicago parties are also interested in the project because of the large amount of refined copper that can be produced at Weiser. The plant is expected to be one of the most modern in the world.

WILL SURVEY AND MAKE AN ESTIMATE

Surveyors Going Over Route of Malheur Dam.

A party of surveyors is going over the route of the Malheur Dam, which is to be built on the Malheur River. The surveyors are making an estimate of the cost of the dam and the amount of land that will be flooded. The dam is expected to be one of the largest in the world. The surveyors are also making an estimate of the amount of land that will be flooded. The dam is expected to be one of the most modern in the world. The surveyors are also interested in the project because of the large amount of refined copper that can be produced at Weiser. The plant is expected to be one of the most modern in the world.

BIG STRIKE AT MARSHALL LAKE

EIGHT FEET OF HIGH-GRADE ORE IN COUNTEERED IN ERWIN PROPERTY.

A big strike of high-grade ore has been discovered in the Erwin property at Marshall Lake. The ore is estimated to be eight feet thick. The discovery is expected to result in a big increase in the production of copper at Marshall Lake. The Erwin property is one of the largest in the world. The discovery is expected to be one of the most modern in the world. The Erwin property is also interested in the project because of the large amount of refined copper that can be produced at Weiser. The plant is expected to be one of the most modern in the world.
