...When the court was again called, ...at 1 o'clock, the verdict of the jury, which was read by E. N. Hale... ...ley, the foreman.

...Edward Payne is still at liberty on his original bond, and will remain so, pending the hearing of the proceedings in connection with the case of his father, he will not be called on again by the court.

## WEEVIL EXPERT IS IN BOISE

...BOISE, Feb. 10.—Smith, ...ex-state horticultural commissioner of the state of California, arrived in the city Saturday morning and will tomorrow begin his inspection of the alfalfa weevil which California claims to exist in Idaho and which caused California officers to place a quaran... ...tine against all alfalfa shipped into that state from Idaho. After lecturing over three months in the matter, California sent an agent here to look into the matter and give the state a hearing upon the quarantine.

...Mr. Smith presented himself at the state horticultural department yesterday and J. C. McPherson, state horticultural inspector, C. J. Sinsel, president of the Boise Commercial club, and H. A. Childs, secretary of the club, entertained the California inspector at luncheon yesterday. The ...inspection of the quarantine was discussed in the rooms of the Commercial club yesterday afternoon by the state horticultural inspector offered all the information in him to the California horticulturist in finding the weevil.

...Mr. Sinsel and Mr. Childs pointed out to Smith how the state of Cali... ...fornia had been unfair in placing a quarantine upon Idaho alfalfa without giving the state a hearing in the matter, and Smith stated that he would make an investigation in all of the alfalfa sections and would do the square thing in the matter of putting a ...

## GETS RAISED FIVE DOLLARS.

### Police Judge Trusts Sue Man and Baby Has Five Bones Broke

Plus this Time $25.

Jack Patton was raised $5 by Police Judge Travis this morning when he was brought before that court on charges of drunk and disorderly. The arrest was made Saturday night by Night Marshal James when Patton was doing the noise act in the Gem cafe.

The raise of $5 came as a consequence to this being the second visit of Patton to this same identical bar in the last fortnight. At his previous visit when he plead guilty he was assessed a fine of $10, but this time the fine was raised to $15 by the court. Patton admitted in the court this morning that he had fallen off the wagon and was a little hoarser on the...

## ENGINEERS' ANNUAL COMING.

### Will Hold a Four Hours' Meeting at this City from 2Sth to 30th.

Some Organization.

The annual meeting of the board...bers of Engineers will be held here for their states, beginning the 29th and 30th and continuing over until the 31st. A program has been arranged by the program committee and it is expected that there will be not less than 150 present at the meeting.

On the 29th there will be Ritz dance with the exception of the formal smoker that evening at the Commercial club of the city, and a reception is on the members.

Friday morning will commence the registration and the business session and in the afternoon there will be a paper on Public Highways by J. P. Condron, after which there will be a discussion of the subject by E. E. Scharf, S. O. Smith, K. O. Stockton and J. D. Marvelin.

In the evening the topic for discussion will be "Weed Preservation" and the paper of the evening will be read by A. F. Shaver.

Immediately after this there will be an informal dance also in honor of the visiting members of the engineers' convention.

Saturday morning there will be a discussion of the question of pavement construction. A lengthy paper has been prepared on this subject by E. V. Berg and there will be a discussion of this matter by both engineers and practical road men. Walter Fels, O. G. Goldman and S. M. French will speak on this subject. This will be followed by a business session in the morning and in the afternoon there will be visits made to as many of the points of interest in the city as possible. In the evening the annual banquet will be given at the Hotel Washington.

Sunday the last day of the meeting will furnish a trip by special train to the beautiful resorts of the society. Boise is the objective point and it is believed that the best time...ever had by the Idaho Society of Engineers will be made on this occasion.

The engineers will be the guests of the city during their stay here and it is expected that there will be many interesting features in connection with the meeting. The trip will consume about three days' meeting and will take up the entire day.

## Who Pays the Freight.

The following letter speaking itself and is worthy of complete...dition. Weeds...It is the sentiment of the entire community and this is why many people who have not the money to show their appreciation in cash substitute, at the same time there is not the slightest doubt but that the entire population of the city of Weiser feels the same as the Morris Sommer company.

All honor and praise is due the boys of the fire department that take their lives in their hands and without thought of remuneration for their work or time required in the exit of the fire alarm.

S. W. Barnes, Chief Weiser Fire Department.

Dear Sir: We enclose herewith $5 as a token of appreciation of the services rendered in extinguishing the fire in our building on January 22.

The Weiser fire department is an organization of which Weiser citizens may well be proud. In numerous fires always responded to the alarms, have given their time and labor without compensation, and have built up an efficient department which ranks...in Northwestern cities. Respectfully,

MORRIS SOMMER COMPANY.

## "ROSARY" AS THOSE PRODUCES.

### Production Deals With Present Day Eternal Troubles of the Home —Is Not Overdrawn or Mushy.

At the present day when so many plays are being presented which deal with questionable subjects, it is a relief to turn to a piece which breathes purity and sweet fellowship and leads one day to a broader view of life and humanity.

Such a play is "Dr. Ramsay," written by Edward E. Rose, author of Jessica Dredon," and Clifford and produced by them.

The theme of the play concerns a man and a woman happily married and surrounded with every luxury that money and culture can secure, but the husband is an unbeliever, an agnostic, almost cynic in my mind.

There is a loving note in the household, however, a sincerity of worship and love for the Master which is the keynote of the manse. No one notices the child's friend of the household until, in a study, a print of the modern world with a deep lookout into human nature and a clever face for his fellow men. And then arise and trouble come, when the home is wrecked and the husband and wife are brought down to the depths of sufferers' misery. In the priest's calm courage and faith that saves them, drives away the...and brings them both into the sun...light of hope and love.

The play will be given at the Wheaton theatre next Thursday with Harry ...Terry in the role of Father Dela...Kelly, the priest.

At a meeting of the Weiser Commercial Club held Friday night at the home of Mr. L. E. Fisher, ...ward, Idaho, stated, there were several matters of importance, brought up. One of the chief of which was the elimination of clothing and bedding to the poor.

One of the leading members said, "We have been living so many years for clothing and bedding that our supply is extended and we find that in order to relieve the...ssities of so many of the needy poor, that we will have to depend on the generosity of the citizens of Weiser and for this reason investigating have been made with the Weiser Trading Company and the Morris Sommer Company for store room, for the articles that may be brought in by the people as donations.

Wednesday is the day that has been set as the time of distribution of the articles. In the meantime anyone that has articles of...clothing or bedding can leave them at either of these stores, and the committee will...see that they are sent to the places where they are the most needed and will do the most good.

In all cases where there are donations made to the needy the cases are first investigated before anything is done. This is a rule of the committee. Another meeting will be held Wednesday.

### Mammoth Hosiery Machine.

That the Haas Hardware company has faith in the future development of a large two-ton automatic punch and riveting machine. This company makes a specialty of steel pipe for irrigation purposes, and this machine will enable them to slide the steel in sheets to the thickness of a half inch and punch and rivet it right in their machine shop. Some idea of the strength of the machine may be gathered from the fact that it will punch a three-eighth hole through a half inch of steel and rivet and upset the rivet in the same act at once.

No longer will the seam of handriveting be heard in this up-to-date establishment, but instead the swift...ring of a machine which will turn out a job in double quick time. This company is extending to customers for a hundred miles in each direction from Weiser and ranks under with the leading thawing and rivet...boilermaker concerns of the northwest.
