COMMISSIONER CITY ATTORNEY

Resigns Job to Become Member of Law Firm Here Tilings.

The latest action in connection with Mayor Alves and the city council on the question of [illegible] was the resignation of Geo. Tilings, city attorney, who tendered his resignation to the mayor and council at their meeting on Tuesday night. Mr. Tilings has been a member of the city council for several years and has been city attorney for the past year. He has been a member of the firm of Tilings & Tilings, but has now decided to take up the practice of law alone. He will continue to occupy his present office in the Weiser National bank building.

Mr. Tilings has been a resident of Weiser for many years and has always taken an active interest in the affairs of the city. He has been a member of the school board for a number of years and has been city attorney for the past year. He has been a member of the city council for several years and has been city attorney for the past year. He has been a member of the city council for several years and has been city attorney for the past year.

[illegible] Tilings, Mr. Tilings

PUBLISHED CITY IMPORTANTS

While the city council is now in the committee of the whole, and the public generally are invited to attend the meetings, it is not necessary that the public be present in order that the council may transact business. It is not necessary to make a fair or legislative session of the meetings in order to be present.

The Signal considers the real duty of the people of the city, and more especially the responsibility or duties which rest on the shoulders of the mayor and his council, is to economize the expenditure of money to be expended here next year, and to consider the proposed changes we are inclined to think the ordinance very reasonable. In one matter we do not think the committee has gone far enough. The meeting should come both first street East and first street West from the railroad to Court street. Anything short of this will fail to save the present demands of many traffic, and from a standpoint of beautifying the city the additional paving should be done. While it would seem the part of wisdom to extend the paving, and sewer mains as far as possible. The Signal would much rather see a little less sprinkling covered by them, than have the paving confined to Main street and the intersecting streets and alleys.

Every patriotic citizen of Weiser will applaud the city council in the step forward it is proposed to take, and we sincerely hope the matter will be pushed into final consummation. The fourth district of the Grand Ward should consist on this very basis, and while they have not many residences to be benefited, the water main extension is certainly one necessary to the future growth of the city. Something and should receive its consideration, and they deserve to the end that the work carried out of these must be done before another winter sets in.

Judge H. Webb, State Food and Sanitary Commissioner, says the statements contained in the circular recently sent to the people of Southern Idaho by Montgomery Ward & Co., attacking the merchants of Twin Falls, are misleading and false. Ward & Co. are with a chloride fall of truths every line the statements in their circular. Merchants of Twin Falls must defend themselves as best they can, but Weiser business is capable of taking care of itself, and never hesitates to engage them to put up and down.

The Caldwell News is after the city of Boise in connection with the location of the Idaho Industrial Institute for Girls, and offers, as Boise's strongest argument, the location of Boise's normal school in the immediate vicinity. The Caldwell News is right, as giving consideration of Boise's normal school in the immediate vicinity of the institute for girls would be a strong argument in favor of Boise, but it is not the only one. The Boise Commercial Club has been working for the location of the institute for girls in Boise, and has a number of other arguments which will be presented to the board of trustees when they meet in Boise. Weiser has not entered the contest for the institute for girls, but if the board of trustees should decide to locate the institute in this section of the state, Weiser would be glad to have it located here, and would be willing to meet any reasonable proposition that might be made by the board of trustees.

The Nampa Leader-Herald says: "Democrats of Idaho are all of one mind, so far as we can learn, in the matter of the appointment of Governor Hawley to the senate. While has for his term the beautiful and well-rounded character that he has exhibited in the office of governor, he has been a democrat of the democrats, and will always remain one. None of the democratic papers in the state have criticised the appointment, and the democratic members of the legislature have commended and elected the same. Governor Hawley will be a democratic senator in the sense of the word, and will be found voting with the democratic party on all party measures. This fact will never prevent him from voting with the republicans on measures that he believes to be for the best interests of the country, but it will never prevent him from voting with the democrats on measures that he believes to be for the best interests of the country. This fact
