THE WEISER SEMI-WEEKLY SIGNAL

TWENTY-THIRD YEAR. WEISER, WASHINGTON COUNTY, IDAHO, WEDNESDAY, MARCH 28, 1906. NO. 49

SUCCESSFULLY FIGHTING THE BIG SALT TRUST

Idaho Wool Growers Association Has Purchased Salt Plant in Utah.

Salt for stock feeding purposes has taken a tumble during the past few days, the price being reduced more than one-half, says the Capital News. Prior to the first of March salt was selling at all points for $2.25 per 100, F. O. B. The railroad rate from Utah to Boise was 80 per ton which made it cost $18.50 laid down in Boise. Through the efforts of the Idaho Wool Growers's association the railroad company reduced the rate to $8 per ton, making the cost $12.50 per ton.

The reduction in the price of salt was brought about through the action of the Idaho Wool Growers' association in purchasing the great Western plant on the Lucin cut-off, 12 miles from Ogden. The association purchased the plant on March 3, taking possession of the works a few days later. As soon as the association purchased the Great Western plant the trust reduced the price to $12.50. As soon as the association came into possession of the plant it put the price down at $8. The trust came back with a cut to $12.50 which was promptly met by the association and the fight is now on to the finish.

The Great Western plant which the Idaho Wool Growers' association purchased for an actual output of 2,000 to 3,000 tons most always comprises the 1000 tons.

WILL GO TO CANADA

(Continued from page 1.)

public man. The matter has been brought to the attention of the committee on Privileges and Elections and it is now that likely Senator Gamon will be asked to come to Washington and tell his side of the case. It is claimed that his communication without giving the right to prove his charges is unAmerican and should not be noticed.

The Evening News today rates to the one editorially under caption, "Two Mormons," as follows:

"In the news from Utah today of the excommunication of ex-United States Senator Frank J. Cannon by the Mormon church hops is kept up particularly for thoughtful countrymen. Outside the less case of the church for apostacy and disloyalty, both of which may be regarded as serious offense if proven. The claims for his excommunication are his criticism of the church leaders for violation of the laws of the United States. For being ostracized by the church he is banned by it and stands in the line of succession to the leadership of the Mormon church not only of Utah, but of the whole world. What has caused these losses to fall on his shoulders, how his views different from that of the excommunicated Cannon?

"When President Joseph F. Smith of the Mormon church appeared before the Senate Committee on Privileges and Elections last spring and solemnly assured by determination to continue his violations of the laws of Cogdlad man, Apostle Smoot sat by in his role of Senator defending his right to his seat. Last fall Senator Smoot as an apostle voted to sustain Smith as the head of the Mormon church in spite of all the bitter defiances of the nation, the flesh and the American people.

"Is this so?

"Is Nampa, Payette and Weiser all put last night tackling the question of limbs will become one of the greatest professors of negro in the United States, since the conditions for the growth of boats so peculiarly favorable.—Boise Statesman.

30,000 RUSSIAN WORKMEN HAVE BEEN LOCKED OUT

Serious Trouble is Expected, as Men Are in Angry Mood—Officials Receive Warning.

St. Petersburg, March 26.—The industrial problem in St. Petersburg again entered on a difficult stage, the cessation of many factories having in consequence of sanitary heating and fitting by their employes. Decided to close down their works entirely, including 30,000 men. The idle workmen are in ugly frame of mind. The machinery in one of the big cotton mills was wrecked yesterday and the order is in the air. Trouble is expected and it is believed the strikers are now not without bombs and other weapons of defense and service. Count Witte continues to receive deputations and deputies, but the fourth warrants if they come the troops to fire, and a mild persuasive of fragmentation and disturbance is evident.

The proprietors of the cotton mills and woolen mills which have been operating on the smallest possible margin of profit, are generally planning to pay off and discharge their employes, trying, with the aid of the authorities, to send them back to the villages.

It is openly stated among the workmen that the fighting wing of the social revolutionists has passed control of about 30 high personages, the list being headed with the name of Grand Duke Alexis and ending with that of the emperor and hosting also the name of the Governor empress.

Among the Mines in Thunder District.

(Thunder Mountain News.)

H. T. Gilmer.

The H. T. will soon resume operations and great excitement is felt here that the property under good management will make a first class showing for itself.

Sixth Century.

Attention is already been called to the extensive operations going on at the Sixth Century mine. The development work given such promise that Manager Nourse is speaking the week forward to be full capacity.

The Sunnyside.

The rock crusher is expected the 15th of this month. Al Kopp, the intended freighter will not be much behind schedule time. The stamps will drop at the Sunnyside one month after the rock crusher. At present 20 men are employed at the mine and the force will be largely increased when the mill starts.

Standard Mine.

Supt. Todd, of the Standard mine was in town Tuesday. Development work there is progressing in rapid. Mr. Todd expects within a few weeks to add to the working force of that mine and according to the present indications the Standard will be called the million to the mint with in a few months.

A representative of The New York Mining & Milling Co. was in town with D. A. Baxter, selling supplies for the company. We asked if there was anything new at the mine. Mr. Baxter replied, "Oh, nothing of interest; we are keeping along the same old rut." The reporter observed that the ore looked very much like it did when he was there in the heart of the Rhine Hoof mountains and running out in immense stringers. While few 200 tons of ore are being shipped from there, pounds are continually piling up, to fatten the dump.

Chief of Oil's Force.

A. A. Smith died at Olds Ferry Thursday evening from supplement stomach troubles after a long illness. The funeral was brought here on the Saturday afternoon train and interment made in the Weiser cemetery. Deceased was 58 years of age and is survived by the wife and one son, I. F. Smith, of Chicago, who arrived in the city from the east Saturday afternoon.

BIG DEAL INVOLVES O. P. RAILWAY PROPERTIES

Will Sell Kinds Private Cars—Is a Party of Noted Capitalists.

What Kinds Private cars—Is a party of noted capitalists, headed by Chas. Hayden, formerly head of the Mercantile agency, with headquarters in Boston, are said to have completed a deal being negotiated by the Canada Northern for a large tract of land in Canada, involving over a million dollars. If it goes through it will give the Canada an empire of land in Canada, lying over the Canadian Pacific, and just right through a party who is close to some of the extensive coal beds in Alberta, Canada. The Hayden party has the money, which it has drawn from the east and this of the Pacific, to pay for the property, but it wants some assurance that the polypotamia, who have gone to that country will be protected and not driven out of the Dominion. And in its quiet this fact the Hitch occurs. The Hayden party is not actually the corporation, and the deal has shown that it does not give up without getting more than value received in return, but in this case the option paid may be lost and the deal fall through unless assurance of protection can be given.

The party has gone back to Canada to see if it can bring a plan about so that the Hayden can be driven the Dominion with the Canadian Pacific will consummate the deal.

The Chicago Lady Racketeers of the open house April 1st. Oddfellows Club has secured them.

WEISERITES INTERESTED IN RAMEY RIDGE

PROPERTIES THROUGH THAT SECTION LOOK FINE---GERHEART BEHRENS HAS DISAPPEARED.

William Yeates, the well-known Big Creek prospector and mine owner, arrived in the city Monday afternoon direct from the mines and gave some interesting news from that section. Those interested with Mr. Yeates in mining property on Ramey ridge are H. M. Horton and Dr. J. R. Thornburg of this city and N. R. McGregor of Moscow. Considerable development work has been done on this property which shows up splendidly. It is brought out samples of the ore which show good values. Speaking of this ore Mr. Yeates said: "It is especially good grade. Just below the "Little One" is the "Big Two" property owned by Mingus Belcher. A tunnel on which a 40-foot shaft has been sunk. A 100-foot tunnel has been run from below to tapped a splendid 7-foot vein which looks high in values.

Mr. Yeates states his whole company has been located, and an extensive body has been developed. Above these two, Mr. Yeates says, is the "Little Giant" property owned by Joseph Day. This property is a valuable condition from dumps and its recovery is extremely doubtful. It also vouched that Gerheart Behrens has not been murdered, but is alive and well. Some days ago he left Big Creek on horseback for Ramey ridge to look after his mining interests there. He arrived at his destination all right, but from here on his trail is lost. It is not known whether he left the ridge or not. Mr. Behrens is well known in all old times throughout this section.

Big Deal Involves O. P. Railway Properties

(Continued from page 1.)

The Hitchcock military board has been in session in this city today discussing rules and a general plans for carrying out the provisions of the law. Dr. Hvida, the state veterinary surgeon; D. H. Manly, Fred W. Keeling, J. W. Webber and William Pfiffner, members of the board, and Colonel George Hitchcock of Falls Lake, in charge of the livestock inspection in the northern Dr. Mehlhorn and other federal inspectors.

The commissioners will meet again this evening when it is expected official action will be taken. The meetings will be held in the governor's office, when an informal talk was had on the law. Those attending this morning was held in the governor's office, when an informal talk was had on the law. Those attending this meeting was held in the governor's office, when an informal talk was had on the law. Those attending this meeting was held in the governor's office, when an informal talk was had on the law. Those attending this meeting
