

IDAHO INSPECTOR SUBMITS REPORT

VALUABLE REVIEW OF MINING CONDITIONS IN THE STATE FOR THE YEAR 1903.

Robert H. Bell, state inspector of mines, has just submitted his annual report for the year 1903 to Governor H. H. Burdick. The report is a valuable contribution to the knowledge of the mining industry in Idaho, and is one of the most complete and up-to-date reports ever published in the state. It contains a detailed review of the mining conditions in Idaho for the year 1903, and also contains a list of the mines in the state, with a description of each mine and its products. The report is divided into two parts, the first part dealing with the general conditions of the mining industry in Idaho, and the second part dealing with the details of the mining operations in the state. The first part of the report contains a general review of the mining industry in Idaho for the year 1903, and also contains a list of the mines in the state, with a description of each mine and its products. The second part of the report contains a detailed review of the mining operations in the state, and also contains a list of the mines in the state, with a description of each mine and its products. The report is a valuable contribution to the knowledge of the mining industry in Idaho, and is one of the most complete and up-to-date reports ever published in the state.
