WATER IN THE CITY
 Yesterday morning was very hot and the water supply was very low. The city council has decided to increase the water rate to cover the cost of the new water works. This is a very necessary step and we hope that the people will understand the need for it.

THE CITY COUNCIL
 The city council met yesterday afternoon and discussed the proposed increase in the water rate. The council members are of the opinion that the increase is justified and they will vote on it at a later date.
