READ YOUR HOME PAPER.

A good many extra copies of this issue of the Daily Signal are going into Nampa, Caldwell and Washington county, and we look a careful perusal of its columns. The news of the day, both local and foreign, will be found and it can be had every day in the month for a little less than two cents delivered at your door. By mail you can get it for a little over a cent and a half a day. Do you not think it is worth the money? If so join our happy family and help support the only advertising proposition Weiser has ever had.

It is our intention to give the news at all times without fear or favor, and if you know anything worth printing send it in or call up telephone number 16. We will be glad to have you do so. Then send in your subscription and see how your item looks in print. Some of the news appearing in the Signal will be of interest to you, but we would like to have the Signal go into every home in the county and getting every good newspaper and standing for the best interests of our community will help the cause along we will do our part. Our motto is "If in the Signal its true," and it is our intention to maintain that reputation.

Don't you think it a pretty good proposition?

The Signal will get together about twice each week, and will never get out together. We want to please the people with every assurance that their interests are to be subserved, or they will have nothing to do with, as representatives, or part, hereof, or publication. In order to accomplish this there must be a combination of some of the leading of the political organizations. The voters would not trust them and would have a fit, but little confidence in their promises. Nothing but a union can will stop the growth of the Bull Moose organization.

Senator Fields says he will wait until the legislature gets together again, and if the school consolidation bill or the election of Senator Brode. There can be no more opportune time to consolidate than right now. If Senator Brady purchased his election out with the funds. If he has been maligned by a humiliated and disappointed number of the late unsavory senate if he is a "BOSS" or "PUPPET" him that he is contented and pulled right before the people of his state. Senator Brode needs, maintains, and has always a dirty deal by Taylor and others in return, but that is no justification for an unsupported charge against a man whose election Senator Fields and the Latin county delegation contributed to. "Once a brother, and if you have the goods to deliver the people will reward you for your courage. It not what the senate combination of resentments did to you will not be a consideration to what the press and people of the state will do. To deliver either the goods or space will not better matters.

The alacrity with which "healing cure" ads have gathered in by Sheriff Wallace, Chief of Police Kunz, County Attorney Harris and City Attorney Smith is most admirable and commendable. Step the new sheriff may be behind into active service has been good town work and the results are telling. All of the offender named recently did in proper person to be washing a prisoner. So Matilda next word to her father that "sick in health and sickness in body," she had firmly resolved not to marry no man but Dode Williams.

It's funny, after William had conquered England—he offered his queen the services of his English cohorts and his navy. Matilda did not have to think twice. She not only clean spit their cousins, but she put him in prison and kept him there all the rest of his life. An excellent argument for the wise custom of restricting women's choice to our own in time.

Began to Enjoy Himself.

"He stayed so late that he generation I bought out the graphophone about 11:30 and played 'Home, Sweet Home.'"

"Did that start him?"

"Quite the contrary. When he learned we had a graphophone he made the play about every record we had."—Louisville Courier-Journal.

COUNCIL REORGANIZES WITH WARMEST FEELING

New Appointments Made and Committees Reconstructed—Bonds Received and Accepted.

Among the chief matters of interest taken up at the council meeting last night, especially to some of the people concerned were the appointments made by the mayor of city officials for the coming year. All of the old appointees were reappointed and the usual rumor mill-harrowing may be expected to continue to prevail in the city of Weiser.

The new appointed were: Frank Kiser, chief of police; J. A. Sinclair, night police; E. B. Hyde, city attorney; Dr. H. Price, superintendent of the city light plant and sewers.

In the reconstruction of the several committees which the time would necessary it will be seen that the customary shake up took place in the letting of the chairmen of the finance committee, chairmanship first then important committees a change was made and I. F. Smith made chairman.

Committees Appointed.

Committees for the following year as appointed are:

Finance and ordinance—I. F. Smith, F. H. Lloyd and W. F. Klein.

Streets, alleys, ditches and public grounds—W. A. Fullerton, H. Hinkle and L. C. Weston.

Police and Fire Department—W. F. Klein, Dr. Hamilton and Chas. Wasmer.

Licenses and Tipping Houses—I. F. Smith, H. Hunt and W. A. Fullerton.

Waterworks—F. H. Lloyd, W. F. Klein and I. F. Smith.

Hospital—B. Ross, L. C. Weston and W. A. Fullerton.

Health, Drainage and Cemetery—All members of the council.

Salaries Allowed.

Estimates were allowed on the work done by the hydrant construction companies in the past month and were as follows:

Bishop-McGinty Construction company, $1,222.20; G. A. Homan Construction company, $2,149.91; Reimers Construction company, $15,196.60.

The estimate done by the Bird-Marshall Construction company was not brought before the council as it had not been completed and there are several matters of importance which they may not completed and it is said that their estimate will be held up until action is taken and the work completed as per their contract.

According to the interpretation of the law governing the collection of the road poll tax in this state it is possible for the collector to serve notice on the supervisor and this is held sufficient for the collection of the tax or due from his employees. This idea has been followed by Collector Kunz in collecting from the laborers on the different construction camps and the Weiser Signal carried notice on the city that they would have to pay the taxes or the "hire" assessed by them. The council in observance of the order instructed the city clerk to hold all bills on the city for labor. The office of the city clerk is flooded with bills for labor and they are working over time to get them in and all the checks made out before the 21.

The assessment rolls for the improvement district 4, was accepted and confirmed by the Council. The figures had been published two weeks and since that time there had been no objections contested against the figures shown.

The figures are to be published for the twelve district assessment and the final roll confirmed as the official paper for the publication.

A Liberty Thaw.

Ordinance 214 on the labor of the resident and threatened to jeopardously disrupt the council but harmony prevailed in the meeting. Fireworks were on display and the battery exploded in the midst of the uproar and silence was clearly discernable. Nearly every member of the council seemed to have the uproar at himself and his neighbor and the discussion to tell him previous. Ordinance 215 provided for the vacating a piece of ground once known as Walker street, but when it turns out at both ends it is lack of the Catholic church and the ordinance provides that a suit duties deed be given the owners for the property. After some spell for discussion was had by some fledgling young under a suspension of the rules had peace and "quiet hovered over the "house of ice much trouble."

Fly Week.

Preceding the motion with being the Mayor, or the credit for it is the "boss" of "season" Councilman Lloyd moved that the last week in May be designated as "Fly Swatting Week." He said he had been asked by some ladies to present the matter to the council and try and see that it was passed. The ladies he said were also anxious that the city offer a prize of $10 to the champion swatter. The matter of exhibits, measures and amendments and it was decided that the motion would be taken up at the next meeting.

The balance of the minutes passed, however, and by the last week in May it is safe to say that the fly will be on the wane.

Ordinance 214 was then taken up and discussed at length. It is understood the existing process is to be changed in fact, especially to some of the people concerned were the appointments made by the mayor of city officials for the coming year. All of the old appointees were reappointed and the usual rumor mill-harrowing may be expected to continue to prevail in the city of Weiser.

STRENUOUS LOVEMAKING.

Dode Williams Turned Matilda, and She Got Square as Bridets.

A modern suitor who resorted to brute force to win his lady would soon find himself in the street, if not in the police station. But finishing in unpopular circumstances is a thousand years old. When William the Conqueror set out to make Matilda, daughter of the Count of Flanders, his proposal of confidence he adopted measures that were Dodge, if not Williams.

The ruler Matilda had she did not like William, and she was wished to wed her she could not get. The man she did not wish interfered to be William the Conqueror sent out to make Matilda, daughter of the Count of Flanders, his proposal of confidence he adopted measures that were Dodge, if not Williams.

The ruler Matilda had she did not like William, and she was wished to wed her she could not get. The man she did not wish interfered to be William the Conqueror sent out to make Matilda, daughter of the Count of Flanders, his proposal of confidence he adopted measures that were Dodge, if not Williams.

New York Sun tells the story of its tempestuous wooing:

The ruler Matilda had she did not like William, and she was wished to wed her she could not get. The man she did not wish interfered to be William the Conqueror sent out to make Matilda, daughter of the Count of Flanders, his proposal of confidence he adopted measures that were Dodge, if not Williams.

Matilda William Conqueror refused him with a curt and by Taylor and others in return, but that is no justification for an unsupported charge against a man whose election Senator Brode and the Latin county delegation contributed to. "Once a brother, and if you have the goods to deliver the people will reward you for your courage.
