MINERAL EXHIBIT AT BOISE FAIR

Mining Men Are Urged to Take Proper Action—at Once.

TO THE MINING MEN OF WASHINGTON COUNTY:

GENTLEMEN.—The management of the Idaho Inter-Mountain Fair association fully appreciate that one of the chief industries of our state today, is that of mining. Every county in the state being a producer of the precious metals, and we greatly desire that each county in the state shall be represented at the coming exposition at Boise, Oct. 17 to 22, 1904, and to this end we kindly ask and urge mining men in the various counties, so as dare demonstrate one of their number whom they in shall be to collect an exhibit which will fairly represent the mining interests and resources of their respective county.

Every courtesy and assistance will be given you by the officers of this association.

The exposition is for the entire state of Idaho and we believe that it will afford the best and most practical means of bringing to the attention of the mining world, which is already directed toward Idaho, as least a fair idea of our wonderful resources.

Kindly communicate as soon as possible with the secretary of this association or with W. H. Davies, superintendent of the mineral department. Yours very truly,

INTER-MOUNTAIN FAIR ASS'N.
H. H. PERRY, Secretary.

CRESCENT

Egg-Phosphate

BAKING POWDER

The remarkable financial success of exposition demonstrates its superb merits and wholesomeness.

All Executive Departments Send Treasures to the World's Fair.

Display Installed in the Largest Governmental Exposition Building Ever Constructed — Precious Documents — Relics of Famous Statesmen and Soldiers.

"Moving" Postal Exhibit.

The United States Government building at the World's Fair displays on elevated site just north of the main picture of the Exposition. The great central dome of the Government building is a VERY TRUE "sky" mate of the Pitti, looking across the picturesque, modern gardens that lies between the Palaces of Mines and Metallurgy and Liberal Arts.

The hill slope in front of the Government building is terraced with broad marble "steps" temporarily covered with boards. The building is 325 feet long by 220 feet wide and is the largest structure ever erected as an exposition by the general government. The building is constructed of steel, with marble and granite trimmings. The exhibit of the United States Government will be unique and long remembered by most visitors, forming a splendid central calling.

In the center will be installed a working model of the Panama Canal, showing the methods of excavation and construction. The building is to be devoted to the display from the exterior exhibits of the various departments of the government. The building is to be devoted to the display from the exterior exhibits of the various departments of the government. When the democrats at St. Louis shall put into their platform a demand for economy in public expenditures they can point back to the words but little of their late administration, to draw the contrast between the parties.

In his last message to congress, on December 7, 1903, President Roosevelt said:

"In considering this commission[illegible] the last words shall be an appeal to the congress for the most rigid economy in the expenditure of the money in both in front for the [illegible]. The way to perplexing extravagance is easy, but's return to frugality is difficult. When, however, it is considered that those who bear the burdens of taxation have no guarantee of future care save in the fidelity of their public servants, the duty of all possible retrenchment is plainly manifest."

As a comment upon those words these figures constrain to themselves no mean term for its coming campaign:

[illegible]

Democratic Primaries.

The democratic primaries were held Monday afternoon pursuant to call, and a much larger number of votes were cast than was at first anticipated. The following delegates were elected from the Weiser precinct to the Democratic convention, which meets in Weiser on May 24, to elect delegates to the State convention which also meets in Weiser on June 6:

Kirk Wilcox—P F Dixson, Albert Jenkins, H F Ford, James Stephens, George Fallgant, John Jeffreys, Harold Gantz, Ike A Smith, Josephine Hopkins, Thomas Shannon and John Botterell.

Sitman-Wagner—Worden Jeffreys—F B—Foreman, Hueston Richardson, Dennis Ryan, Mark Parker, O M Harvey, J A Shamel, C W Jewell, A O Gordon, R A Phillips, John Nevins and J B O'Neil.

Ware-Weaver—Scattered—B Romaway, James Campbell, S C Hale, Dave Mahon, Lewis M Dickerson, Harvey N Hevin, F H B Moulton, John J. Conkley, Nic E W Shaver and Mrs Maud Wheeler.

Sitman-Wagner—Worden—Jeffreys—F B—Foreman, Hueston Richardson, Dennis Ryan, Mark Parker, O M Harvey, J A Shamel, C W Jewell, A O Gordon, R A Phillips, John Nevins and J B O'Neil.

Ware-Weaver—Scattered—B Romaway, James Campbell, S C Hale, Dave Mahon, Lewis M Dickerson, Harvey N Hevin, F H B Moulton, John J. Conkley, Nic E W Shaver and Mrs Maud Wheeler.

A Positive Remedy.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment, and cheerfully recommend it as the best medicine for bruises ever used in the universe. It has now become a positive necessity upon myself.—D. R. Spears, merchant, Dorsetville, Texas. 25c, 50c, $1.00. Sold by Churchill Drug & Paint Co.

Automobile Stage Line.

Dillie Tribune: F. W. Vogler, the popular and well known Salmon and Redrock stage line man, arrived in Dillon Wednesday afternoon on a trial trip with his new automobile. He was accompanied as far as Dillon by his wife and Miss Edith Decker, who took the train back to Redrock the same evening. H. E. Reed, an automobile man of Butte, was also with the party.

Mr. Vogler has just received the automobile from the east and was his intention after combing a thorough and personal investigation of the different makes of automobiles in the market, that the machine would be the most suitable and probably several more into operation on the stage line as soon as the roads are in good satisfaction.

He left Redrock on the trial run to Butte about 10 o'clock Wednesday morning, and was a little over four hours coming to Dillon, a distance of about 90 miles. The reason for the slow run into Dillon was on account of exceedingly muddy roads through the canyon. He left here for Butte about 8 o'clock this morning. The roads are reported muddy and heavy through Divide. The machine is for sale by all druggists.

NO QUESTION ABOUT IT.

Possible Fire Can Extinguished with Fire Extinguisher.

Walter A. Zemmerscamp continues to sell Weiser people with the modern standing it positively must stop dyspepsia and indigestion or it will not cost them a cent. That is a remarkable statement, considering how difficult it is to cure dyspepsia, but this is the case can be safely verified.

Kodol digests what you eat. It contains all the natural digestants in a highly concentrated form, so that it will digest any wholesome food. Kodol will cure you because it will enable your stomach to assimilate and digest healthful foods. Kodol will make sour, fermenting, gassy stomachs sweet. Kodol will relieve you of that full, bloated feeling after eating. Kodol will make you eat three square meals a day and relish them. Kodol will make you strong, because it will make you digest your food. Kodol will make you well because it will make you strong. Kodol will make you well and strong because it will make you digest your food. Kodol will make you well and strong because it will make you digest your food. Kodol will make you well and strong because it will make you digest your food
