FOUR

WEISER'S TRIBUTE TO DEPARTED

Decoration Day Observed in a Most Impressive Manner—Text Of Gwinnie Parkinson.

Today will bend heads, render hearts and bother hands, all under a solemn tribute to the departed in a manner most befitting the solemn occasion. Patriotism and devotion to our country and loved ones who have answered the final summons was shown by all parts of the city, where flags and bunting were displayed and the various business institutions and homes. The business houses were closed from 12 to 12 and several remained closed all day, particularly the postoffice and city banks.

The exercises of the day began promptly at 10 o'clock when the parade, consisting of old soldiers and veterans, militia company, members of the W. R. C. and children, headed by the Weiser band, marched through the principal streets to the Wheeler theater. Here the splendid program arranged was carried out in detail. Upon arrival at the theater the band and militia were ordered inside to permit the old soldiers, ladies of the corps and children to pass into the theater, on the stage with a background of old glory, and presenting an impressive picture, were seated the aged veterans, many of them of the

...After a selection by the band, followed with a short but very impressive address by Major Ahern the following program was rendered:

Selection.....by Weiser Band
Prayer.....Rev. H. S. Cullen
Vocal Solo.....Miss Nina Howe
Reading General Orders from Headquarters, Hdr. U. S. Grant
Song, "Our Spotless Banner".....
Lincoln's Gettysburg Address.....
Song.....Male Quartette
Address.....Judge J. H. Hawkins, Jr.
Song, "America".....Male Quartette
Benediction, by Rev. Cullens.

The address by Judge Hawkins was one of the best ever delivered in Weiser on a similar occasion. The Judge is a gifted speaker and in his usual pleasing manner brought out many impressive and valuable thoughts. He said in effective words the heroes in the nation's greatest struggle.

Following the exercises at the theater the procession again formed and led by the institute band the long line, composed of the old soldiers, sub-teens, militiamen, automobiles, carriages and other vehicles, and many citizens afoot, quickly wended its way to the "silent city on the hill" nearly a mile, where the final ceremonies of the day were held and the graves strewn with beautiful flowers and choice floral tributes.

In accordance with the governor's proclamation and beginning promptly at 12 o'clock, the various halls of the city were tolled for five minutes, which impressively added to the solemnity of the occasion.

Never has the cemetery presented a more beautiful and impressive scene, with its myriads of floral tributes and hundreds of fair flag-bedecked graves, and hundreds of fair flag-bedecked graves, and hundreds of fair flag-bedecked graves,

ANOTHER OPPORTUNITY FOR WOMEN.

Yet another page of the Daily Signal is an article concerning some Red Bonds needing at Lenox Park. The far-reaching effect of such methods can be realized, when it is understood the object is the building of a good substantial auto-mobile tire which will pass through Idaho. Long miles of it can be built! It should be signed for the reason Weiser is on the present route and it is the people of Weiser who will benefit by the good roads, until thousands of tourists pass to the northwest and thousands more will not only "modify himself" but be all ready for a residence in the Panhandle of the state that this road is put good. All this bonding about trickery or attempts to split the party are the notion of rot. If there is a lack of harmony it will be because the wise-acre forces are not willing to submit to majority rule. It will resort to falsehood and slander to thwart the will of a majority of the voters of Idaho.

THE STREET SPRAYING AND SPRINKLING WAGON.

Editor of Signal:

Since we have today (Sunday) the first of sprinkling, seems very necessary to be officially way of criticism and suggestion. We are thankful for the sprinkling and are interesting it, at the same time, to make a few remarkable points, and these are meant only for good effect to produce, by those who have followed the business.

We present to the district in question a change in location, especially between and the number that "Sunday has nothing to do with religion." In fact, I believe could be referred to the Bible without any impropriety provided he would only refer to the Bible in behalf of better conditions in the world. There are far too few Bible readers and students of God's word nowadays. Sunday is often in the Bible but a relative, and we do not recognize ourselves with it at all. They know it would be fatal to Sunday as now quite generally observed.

And also consonant with Scientific Literature will agree that it is many possible with science. And, indeed, the amount of literature in circulation within the Scientific proposals is amazing and stupendous. It is consequence to have Sunday stay. "Sunday is no religion," and from both their professing and their practice, an credit their statement. The proclaimers of modern Socialism were Moore and Rousin, and they were well known infidels. Moreover, Socialism was introduced into America by their followers, who drank in infidelism with their beer and behind the scene of deal.

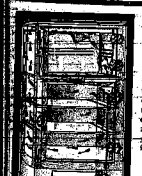
FRIDAY, JUNE 7

NOTICE—This show is run on business principles. It tolerates no thieves, swindlers or confidence operators from its tickets we sell for each performance. Each performance is given in its entirety and strictly to time among you as low shilling citizens and not a host of lurking cutthroats, second story workers and those engaged in working under the cloak of an amusement enterprise. We feel sure the public has a good memory and will choose wisely.

COLE BROS. CIRCUS



CRYSTAL CIRCULATION

The cold air that drops down from the ice chamber at the top of the refrigerator is what keeps the contents cold. This is the air circulation you ever saw. You can test this for yourself by placing a box of matches, or a dish of crackers in a dry cool place and leave them there for a week, when they will come out as dry as a bone. Dry, cold air is exactly the thing for refrigeration. Without this fact, dry air you can do not get the right results. It is the best results you are looking for while you buy a refrigerator. Don't be fooled on this point.

THE CRYSTAL REFRIGERATOR

Has the strongest features for a first class ice box. No other make excels it. Constructed entirely of metal, the doors do not shrink as well. Oh how you do hate a tight door which is hard to open and close. It's trying on your patience. You don't get so mad at a shrunken door, because it will open easy enough, but there's no suction as well. The door is not air tight enough more ice to soon make up the difference is cost. The door is small and lets but air in around it so quick the ice does not last long. These are defects with the Crystal. The door's cannot warp, shrink nor swell. This will be a great satisfaction to you through the many years you will be able to use the Crystal.

THE BEAUTIFUL SNOW WHITE FINISH

inside and out shows you where the dirt is which helps you keep the Crystal perfectly clean and sanitary. If there is any one thing above another that you want in a refrigerator it is cleanliness—the great preventative of disease and perfect health. This much can not be said for the cleanly and sanitary features of the Crystal.

Don't let the low priced boxes fool you. They are cheap to begin with, but expensive in the long run. The Crystal is enough more ice to soon make up the difference in cost. They do not last nearly so long. It's only a short time before you will say another: Got a Crystal to start with and save on your ice bills. You will also have the feeling that it will last for many years before you will have to spend some good money for another refrigerator. It doesn't matter much difference about how much money you have to spend, you do not want to put any more into an article than necessary to get the right results. When you can get a good a refrigerator as the Crystal for such a reasonable price you will be more than pleased with your deal.

You don't have to take our word for all these things about the Crystal, but you can come around to our store and see these things for yourself. You know a good thing when you see it. Don't delay another day, because the weather is getting awfully hot and you need a good refrigerator. Come right in and let us show you the good features of the Crystal. When you see this beautiful refrigerator you will thank us for urging you to come and take a look at it.

In Society

A jolly crowd of pleasure seekers motored to Cambridge Thursday and spent a very delightful afternoon in fishing. An ample account of the day's pleasure was given by the crowd to supply news for tongues, which was cooked over the campfire. At a late hour the very reluctant home, all declaring it a good time. The party was composed of the following: John Lloyd and family, Ben Dodds and family, C. S. Applegate and family, J. F. Glass and family, Jr., and Mrs. F. H. Lloyd and Mrs. E. L. Allen.

* * *

The members of the Christian Endeavor of the Christian church held a business and social meeting at the church Thursday evening. After the business was transacted everyone enjoyed a social chat. A number of games were played and refreshments were served.

* * *

The members of St. Luke's Guild held their regular business meeting Thursday afternoon at the home of Mrs. Knox. Their next meeting will be with Mrs. Lloyd next week. Arrangements were made to hold miscellany supper in the hall Thursday evening of next week.

* * *

Undispersed.

"Mother," he said unfeelingly upon his return from the lodge, "congratulate me. I am only a year and a month old from that of the first rank."

"Yes," said Mother Hubbard, "and it was a high and mighty drop of the second degree."

"Hmph!"

"I have been elected to the degree of great eminent chancellor of the knight sublime."

"Hmph!"

"I am a grand seat of the early rioters. I am one of the inner sheaters of the temple and am also entitled to wear the purple robes of an exemplified member."

"Yes," said Mother Hubbard, "and what is more, I am a genuine blue of the faraway fog."

"All right, kitty. Now go out in the back yard and bust the first one of the lot you find. By the time you get through with that yearly necessity I may be on earth again," said the crabby Father Hubbard.

Defined.

"I say, what's rum money?"

"Why, you're the third son mother's ever had, you know," replied Father Hubbard.

Fraternal relations of the social kind of every sex, in the truest sense, which always mean refinement, sweetness and sunlight in social form—it is heart-cheer Hermit. Hermit Today is the birthday of the people for transitory happiness is gathered from a state of society that renders the mission of sweetness when the foundation of the happiness and the stability of this institution seems to be wanting.

It is apparent from the above citation that liberty rhetoric is one and its happiness has obliterated for the average Socialist and he is the "free and brave." But the proletariat can really understand the language of abstract and unfounded argument, namely, Wilhelm Liebknecht, in his book, called, "Socialism: Its Rise of History": "It is fair to Socialism to root out the faith in God with all our soul, or in any case worthy the name who does not subordinate himself to the spread of atheism."

Prof. Geo. D. Herron, the apostle of socialism in this country, says: "All religions the world has ever seen have been imposed for the purpose of perverting the conscience to the service of the ruling class." Again
