

THE NUT CLUB

Hubby's Remark Was Not Exactly a Compliment!

THE WEISER SEMI-WEEKLY SIGNAL  
Published Every Monday and Thursday by THE SIGNAL PUBLISHING COMPANY  
101 E. 10th St., Weiser, Idaho  
L. I. PHOENIX, Editor

Entered June 9, 1913, as second-class matter at the postoffice at Weiser, Idaho, Act of Congress of March 3, 1879.  
Official Paper of Washington County

While they were trending through recent history of Idaho, the people and the state have been making in the annals of the West a name for themselves. We must admit this is the greatest climate on earth.

"Nora Mather" is an awful film. I don't seem to know whether the sensational battle is between Able and Brady, or Able and Maudling. It may be a hard matter to pick the high man over another man, but in the north it is dead easy—Able in a walk—Koonika Mountain.

If the favorable "press comments" are to be believed, the state believes that George H. Baker stands a mighty good chance to carry off the Secretary of State plum at the coming primaries. All concede his eminent fitness for the position and his splendid service for the party.

According to the Capital News a Potlatch timber land sale at \$2.00 per acre has been offered two years ago is a crime while a timber sale to the Idaho Lumber Co. for \$1.00 per acre less than was offered ten years ago is a stroke of good business.

A Good Candidate With a Good Plan  
Eminent people will be particularly interested in the announcement of M. E. Lewis as a candidate for governor, which appears on another page of this issue. He is so well known here as to need no introduction. His large and interested on the bench and his frequent visits here make him famous in Emmett citizen, though his home is in Moscow.

It is not accountability of the officials through result.  
Whether this is an opportune thing for Mr. Lewis to make the race is a question, but if he is successful Idaho will have made no mistake. The state needs men of such character as Mr. Lewis to conduct her business affairs.

ASKS HELP OF COUNTRIES  
Idaho Commissioner to Exposition Makes Some Good Suggestions.  
To Editors, County Commissioners, Commercial Clubs, and Men and Women of Idaho

The most important question confronting the Idaho Commissioner to the Panama-Pacific International Exposition at San Francisco in 1915, is what can be done to serve Idaho best.

It is true that we have erected a building as a most responsible cost and have devoted that building, and the Idaho Building, to the purpose of the Montana Exposition Commission.

"I want to congratulate you on your good work for Idaho." The very first thing that the Idaho Building was completed and dedicated first of all is worth more to the state of Idaho in the way of advertising than any other thing.

To briefly state what has been done so far, and what we are intending to do is as follows:  
We have built a state building, we are making 25,000 feet of moving pictures of scenic and industrial Idaho, we are assembling a wonderful mineral exhibit, we will have a beautiful fruit display, the development of our plants will be featured, the opportunity of the cut-over lands of the north, the great forests of timber, and the products of the farm, field, and stream, we will also care for educational and social features, as the products of the state need to be shown, but what Idaho's exhibit will compare favorably with those of any other state when all this is done we have just gotten started, because we will only be one of many states who are assembling their products on the same lines.

Another important factor, the state of Idaho, has an advertising matter to do about all it can do unless the citizens of this state come into full possession of the importance of the exposition, which will be the greatest exhibition ever held in Idaho.

view of housing here. All of these factors are well taken care of and answered.  
We should have the different resources of the state of Idaho in evidence outside of the exposition grounds. For instance, there should be a beautiful store filled with Idaho fruit, and the salesmen should have a continuous supply of Idaho fruit, and the salesmen should have a continuous supply of Idaho fruit, and the salesmen should have a continuous supply of Idaho fruit.

It is true that we have erected a building as a most responsible cost and have devoted that building, and the Idaho Building, to the purpose of the Montana Exposition Commission.

**SNOW PASSES OVER WEISER BUT FREEZE HITS GARDENS**  
Tomato Plants Now in Demand—Home Receiver a Set Back and Melon Crop Reported Good.  
No Game Yesterday.  
Weiser and Vale did not play ball here yesterday because of the threatening weather of the forenoon. The game was cancelled by wire in the morning. Payette and Ontario played and Ontario won out by a score of 4 to 0. Ontario is now pitching Alexander.

Reports on the cold wave which has swept over this section of the state give rise to the conclusion that it is very probable there will be a hard frost in this section next Saturday and Sunday. The team here will be arranged and managed by C. C. Givens.
