This Hot Weather

The problem is to keep the food firm, fresh and to keep it cool.

Foodstuffs at the proper temperature are germ proof. There is one economical way to preserve your food properly—that is by refrigeration. But there are refrigerators and "refrigerators." Alaska and Herk Refrigerators are made for the use they are put to—Refrigeration.

Standard in quality and price but we have too many in stock. Rather than carry them over until next year we are going to sell them to you at cost.
