### IRIGATION TALK BY W. W. ROBERTSON

Member of Yakima Daily Republic Business Irrigation Committee by His Title.

"I don't know whether about the proposition that has been made to give some people over the Yakima Valley of agricultural production of irrigation by private enterprise, but I am sure that the people of this valley will not be deceived by any such proposition. I believe that the government has a duty to see that the water of this valley is properly distributed and that the people of this valley are properly benefited by it."

# AFTER SUPPER SALE

**No. 2** We were quite sure that there would be no lack of buyers at the first Saturday night sale. The crowd was so large and was so well equipped that it was necessary to close the sale at 7 o'clock but continued unabated until closing time. One can bring a crowd with an offering of big values, but one cannot unless the prices match the advertisement. We did business. We have prepared the second After Supper Sale with another great budget of bargains. We will see a large percentage of the people who came to the first and a host of friends, because there has been much talk of the plums that were picked at the first sale. No one here comes for another crop is ready for those who like to buy goods at retail at less than most stores sell wholesale.

## The Value of A Check Account

EVERY person who receives and pays out money should have a checking account, but there are many people to whom such an account would be a great help, who for some reason have failed to take advantage of their opportunity.

There is no convenience like a checking account to the person who opens it, and our patrons could be well wiser to this fact.

The barrier, which is the name of the novel, is a very original one. The author has written a story that is both interesting and instructive.
