THE SCHOOLS OF WISCONSIN
The Wisconsin State Board of Education
has issued a report on the condition
of the schools in this state for the year
1910-11. The report shows that the
schools are in a better condition than
in any previous year. The average
attendance is 85 per cent, and the
average expenditure per pupil is \$12.50.
The report also shows that the
schools are doing a better job of
teaching the children to read and
write, and that they are doing a
better job of teaching them to be
good citizens.

Notable Women

Money-Back Cutlery

Let me tell you some cutting things to say about cutlery. The result proves to me that those that help the knife-grinder in fact sold so much of the famous VALLEY FORGE CUTLERY that week that I have given a prize window to the display of this article. Come to see me and register to you the price of superiority.
